Issue 2

The airbrake specialist
40 years of experience

Majorsell Limited was established in 1980 as a reconditioning workshop of air brake equipment for commercial vehicles and off-road equipment, specialising in the repair of spring brakes and brake valves. As quality parts were hard to obtain, the decision was made to introduce a range of Majorsell air brake parts, primarily for use in its own workshop. This then became the start of the kit programme for which Majorsell is now internationally renowned. The range of kits offered has now evolved from just brake valves to air dryers, clutch servos, calipers and of course compressors.

The range of Majorsell compressor repair kits and components has increased continually during the last 30 years and is now probably the most extensive range of aftermarket compressor parts offered by a single company in the world. All of our compressor kits are designed with the rebuilder in mind to offer high quality and maximum choice whilst keeping costs to a minimum. They are all built in our UK warehouse to our specification and all of our compressor parts are used in our own reconditioning workshop.

In early 2011 we moved to a much larger facility in West Bromwich and invested a substantial amount in new machinery for our workshop, including a brand new test machine. In 2012 another building was purchased to accommodate the increase in demand for our reconditioned compressors and in 2014 an expansion to our existing workshop was completed.

Majorsell has been exporting since 1988 and now exports to over 70 countries. Our customers include small workshops and rebuilders as well as fleet operators and large distributors. We pride ourselves on our customer service and attention to detail. All of our parts are carefully packed and are easily identifiable in our distinctive Majorsell packaging. Majorsell is an internationally recognised brand which is something we are very proud of.

All Majorsell parts are alternative to OE and are replacements to those of all the leading makes of air brake and truck manufacturers. Over the years we have developed a large database of cross references and technical information, all of which is available on our website. To avoid confusion with any other manufacturer we have our own unique part numbering system.

In addition to air brake parts we also offer a comprehensive range of caliper parts and air conditioning compressors as well as ancillary items and workshop consumables. We are also pleased to be official stockists of Wabco, Cummins, Raufoss, Fleetguard and Valvoline.
